# FULL OF COLORS

## ACTIVITY

**Initial questions:** Remember the colors? Which one is your favorite color?

**Teacher's task:** Select a group of 3 to 5 students, each one will have a designated color (pink, yellow, black, white, purple etc). These students are "colored".

1. Announce that the "colored" students will play "catch" with the colorless classmates.

Each time a student is colored, they have to shout the color they have now.

2. Those that have been colored, will place themselves behind the classmates with the same color, forming a train. Everyone shouts their color to catch the rest.

3. Once everyone has a color the last one of each train is chosen to "catch and color", assigning a new different color. And the game starts all over again.
