**INTRODUCCIÓN**

En este módulo se espera que los estudiantes aprendan vocabulario relacionado a su especialidad ya sea relacionado a las herramientas de trabajo, a la clasificación de prendas que utilizan, que demuestren comprensión lectora. Además de identificar los tipos de prendas que cada persona utiliza para que puedan describirlas en los desfiles de modas que realizarán.

Para alcanzar dicho objetivo, el modulo ha sido desarrollado integrando la asignatura de Inglés y basándose en los módulos del Programa de la especialidad de Vestuario y Confección. Este módulo considera 4 Sesiones de trabajo con un total de 8 horas pedagógicas.

Para abordar estos aprendizajes, cada sesión propone un eje central:

- Identificar las herramientas y materiales de trabajo.
- Reconocer verbos
- Entender y seguir instrucciones en inglés.
- Aprender a describir prendas de vestir.

Cada uno de los ejes propuestos permite al estudiante vincularse de forma efectiva con las herramientas a utilizar, procesos y formas de trabajo de la especialidad.

Todo el módulo y cada sesión de trabajo propone diferentes ejercicios a realizar y al mismo tiempo entrega herramientas para poder resolverlas.

Para concretar los aprendizajes se proponen diversas estrategias metodológicas en las cuales se promueve la generación de sus propios aprendizajes, fortaleciendo la activación de conocimientos previos en cada sesión según el tema propuesto, el desarrollo de lectura y pronunciación adecuada de textos originales, el juego de roles y la presentación oral donde se utiliza el trabajo en equipo y el apoyo entre pares. Al mismo tiempo, se promueve la retroalimentación entre profesor/estudiante y entre compañeros.

## PROBLEM SITUATION

LET'S  
READ

At the beginning of the class, a group of students were sent to the office because they did not wear the traditional uniform.

The general inspector asked to the students, why weren't you wearing the uniform? And the students said: because we don't feel identified with that uniform, besides there are different colors between the others uniforms.

For that reason the principal together with parents and teachers determined to design a new uniform, where students feel comfortable and identified. And to carry out that design we will work with students of custom design specialty. But, there is a percentage of foreign students who do not master the Spanish language and they only can communicate through the English language.

So, custom design specialty will work together with the English subject, so that foreign students can learn the methods and processes of that specialty. Also the rest of the students can learn a second language.

*Al comienzo de la clase, se envió a un grupo de estudiantes a la oficina porque no usaban el uniforme tradicional. El inspector general les preguntó a los estudiantes, ¿por qué no usaban el uniforme? Y los estudiantes dijeron: porque no nos sentimos identificados con ese uniforme, además de que hay diferentes colores entre los otros uniformes.*

*Por esa razón, el director junto con los padres y maestros determinaron diseñar un uniforme nuevo, donde los estudiantes se sientan cómodos e identificados. Y para llevar a cabo ese diseño vamos a trabajar con estudiantes de especialidad de confección. Pero hay un porcentaje de estudiantes extranjeros que no dominan el idioma español y solo pueden comunicarse a través del idioma inglés.*

*Por lo tanto, la especialidad de confección trabajará en conjunto con la asignatura de inglés, para que los estudiantes extranjeros puedan aprender los métodos y procesos de esa especialidad. También el resto de los estudiantes puede aprender un segundo idioma.*

### WHAT IS A PATTERN DESIGNING?

Pattern is the procedure of a technical system for the organization in the construction of a garment. Through this technical system, a pattern is developed starting from a design elaborated by means of a drawing of the garment, or of a complete set in a plane, complying with the follow-up of some measurements, whether they are anthropomorphic (standards measurements) or anatomical measurements, and taking an order of procedures or steps, after the pattern is drawn, it is taken to the cutting table, to make the stroke on the fabric and cut to finish in the construction or assembly of a garment.

There are domestic patterns which are usually silk paper, manila paper or kraft paper, they include instructions for use, suggestions on the most appropriate fabric and possible adaptations. They are available in a wide variety of styles, models, sizes, prices

*Patronaje es el procedimiento del sistema técnico para la organización de la construcción de una prenda de vestir. Mediante este sistema técnico se desarrolla un patrón partiendo de un diseño elaborado mediante un dibujo de la prenda, o de un conjunto completo en un plano, cumpliendo con el seguimiento de unas medidas, sean antromórficas (medidas standars) o medidas anatómicas, y llevando un orden de procedimientos o pasos, después de elaborado el patrón, se lleva a la mesa de corte, para hacer el trazo sobre la tela y cortar hasta terminar en la construcción o armado de una prenda de vestir.*

Reading Comprehension

### H- READ THE TEXT.

#### FASHIONS

Spring, summer, autumn, winter: every season there are new clothes and new fashions in the shops. Colours and styles keep changing. One season black is the 'in' colour, but the next season everyone is wearing orange or pink or grey. One season tight-fitting clothes are fashionable and the next season baggy clothes are 'in'.

The length of women's skirts goes up and down from year to year. In the 1960s, miniskirts became very fashionable and a woman could wear a skirt twenty or thirty centimetres above the knee. A few years later, maxi skirts became trendy and then you had to wear skirts twenty or thirty centimetres below the knee.

Each season there is always a 'correct' length and if your skirt is just a little too long or too short some people will think that you are very unfashionable. Men have similar problems with their shirts. Some years it is fashionable to wear very small collars. Another year small collars become out-dated and large button-down collars are trendy.

Sometimes it even becomes fashionable to wear shirts with no collars at all. A shirt that you once thought was very trendy can look strangely old-fashioned a few years later. And your father's shirts, which you always thought were very conservative and traditional, can suddenly become stylish. Keeping up with the fashions can be very expensive. So one way to save money is never to throw your old clothes out. If you wait long enough, the clothes are out of fashion today will be back in fashion tomorrow. Yesterday's clothes are tomorrow's new fashions

# HOW TO DESCRIBE A GARMENT?

## SESSION 4

Para poder llevar a cabo el Módulo de desfile bilingüe, es importante que el estudiante sepa como describir una prenda de vestir.

Para lograr esto, el estudiante debe saber los nombres de las prendas de vestir, adjetivos que describen el material y otras características de ellas.

Desde la asignatura de inglés se desprende el Objetivo de Aprendizaje en el cual los estudiantes:

- Se expresen oralmente por medio de diálogos con intercambios breves y simples, que incorporen las funciones comunicativas de años anteriores y las funciones de describir acciones en presente continuo.

Para demostrar logros con el objetivo seleccionado se utilizan los criterios donde los alumnos describen acciones en presente continuo y dramatizan diálogos utilizando vocabulario temático.

En el área de vestuario, desde el Módulo de desfile bilingüe, los estudiantes:

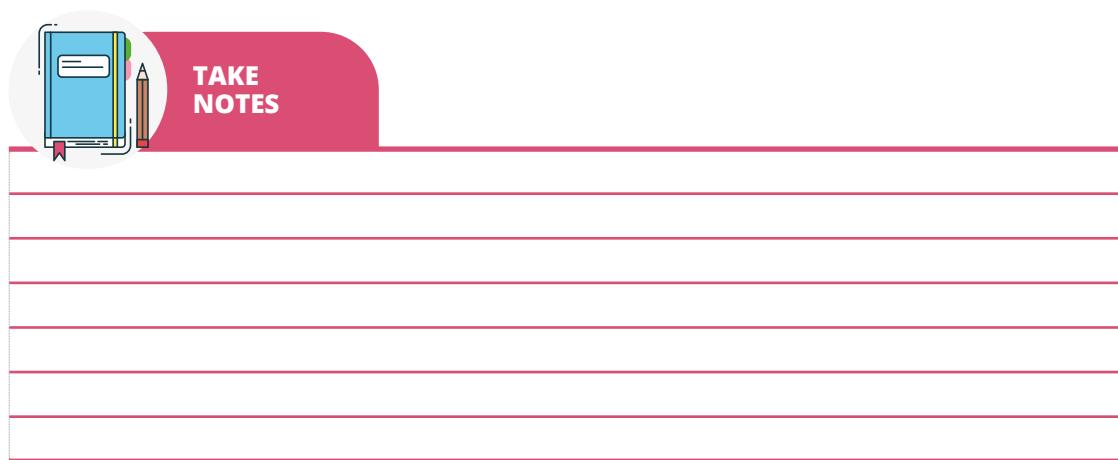

- Identifican vocabulario y adjetivos relacionados a prendas de vestir, clasifican estos de acuerdo a los tipos de prendas y luego siguen el orden de los adjetivos.
- Observan imágenes y escriben oraciones sobre el tipo de prenda que está usando cada niña.
- Realizan un dialogo relacionado a una desfile de moda y dramatizan.

## RESUMEN

Para esta etapa, el estudiante debe trabajar en pareja y crear un diálogo sobre el desfile de moda utilizando el vocabulario y el tiempo gramatical requerido, además ellos deben dramatizarlo.

## SUMMARY

For this stage, the student must work in pair and create a dialogue about fashion show using vocabulary and required grammatical time, besides they must dramatize it.
